

ROUND TRIP GEMSTEL

easy

Hiking

TOUR DESCRIPTION

The hike starts in Böldmen and initially follows the asphalted Gemstelweg trail. Pass the Gemstelhof shop and cross a wooden bridge into a stream. Continue along the gently ascending gravel path through the forest. The shady section of the trail thins out and the route leads to the alpine pastures with a fantastic panorama of the Kleiner Widderstein, Bärenkopf and Walmendingerhorn mountains. Continuing along the hiking trail further into the valley, the route then leads out of the valley again, with views of the Zwölfer, Elfer and Geißhorn mountains on this side of the valley. After a short time, you will lead back to the Gemstelweg along the Gemstelbach stream, across alpine pastures and meadows and through sections of forest, and from numerous places to stop for refreshments, which is particularly interesting for connoisseurs and families.

ROUTE DESCRIPTION

From the car park or from the bus station in Böldmen (Mittelberg), we turn to the Gemstelweg. Past the farmer's shop Gemstelhof we enter the valley. Follow the stream Breitach downriver first, then the Gemstelbach upstream. Follow the signs direction Schönesbodenalpe. The forest / gravel road rises a little slowly. Nature Alp Schönesboden lies just above the path. Once we crossed the bridge with cattle gate we return on the other side of the creek. We leave the valley, hiking along the already familiar Gemstel creek on moderately steep gravel paths. Left we pass large pastures until

How do you consciously experience nature?

Nature is so much more than the backdrop for unforgettable mountain experiences. It is a habitat for animals and plants. It provides valuable raw materials such as wood, it also protects against avalanches and mudslides and regulates the climate. It is up to us to see what we can achieve more:

Smart in NATURE

CONSCIOUS together

EXPERIENCE foresight

Smart in NATURE

Take a deep breath and recharge your batteries, be outside and feel free. When we enjoy nature, we are guests in the living room of someone's living space with you in the future too.

Stay on paths and marked routes

If you follow the marked paths and routes, you are sure to come to new favorite places. In this way you also respect protected areas, any disturbance unnecessarily costs the wild animals the strength they need to survive.

Avoiding twilight times

Standing on a mountain at sunrise is a special experience. The morning and evening hours are also the time when most wild animals are active. To avoid them, please stay on the marked path, do not use a bright headlamp and enjoy the silence.

Stay clean & take rubbish with you

It goes without saying: You take rubbish with you again, on the mountain and in the valley. Please also organic waste, because it is compostable at home or in your accommodation - please remember that there are no rubbish bins in public spaces in Kleinwalsertal.

On the natural toilet

If you are looking for a quiet place, please be at least 50 m away from water. Bury excrement or cover it with a large stone. Use fallen

On tour with a dog

Are you always in control of your four-legged partner, even if he gets his nose for marmots, deer or other wild animals? You are both on guard against an attack by a grazing animal is foreseeable: leash off immediately. There are numerous dog stations in the valley for the disposal of dog waste and fields contaminates the feed and makes grazing cattle sick.

CONSCIOUS to each other

Consideration for other athletes and those looking for relaxation

Everyone loves to enjoy a special piece of earth for themselves. But most of the time we are not traveling alone. No problem, because in a friendly manner, provide support when someone needs help and always give a smile. So nothing stands in the way of friendly cooperation and

Appreciating the preservation of the cultural landscape

Alpine landscapes are touching with their contrast: Imposing peaks and natural forests alternate with gentle valleys, well-tended meadows at high altitudes is no coincidence, but the result of an interplay of natural and cultural landscapes. Behind this is the work of farmers, alpine herders. The attractiveness of the recreation and leisure area and the diversity of species are preserved. We already say thank you if we stay on the

EXPERIENCE farsighted

Safe on tour - for you and others

Whether on a ski or snowshoe tour in winter or on a mountain tour in summer, anyone who is out and about in alpine terrain has to be equipped with the right equipment. Correctly assessing alpine dangers requires a lot of knowledge and experience. Why not learn from professionals?
